Dear Friends

The dire economy has created new challenges for faith communities who wish to pursue their mission through places of worship. The journal Faith & Form is planning a special issue that will focus on how architects, artists, designers, building committees, clergy, and others are finding creative ways to do more with less when it comes to designing and building new facilities or renovating old ones.

This is an open invitation to let Faith & Form know about a project you've completed, or are working on, or a commission, where you are finding creative ways to do more with less. Faith & Form will profile the best ideas in this special issue.

Please feel free to contact Faith & Form editor Mike Crosbie at: [mcrosbie@faithandform.com](mailto:mcrosbie@faithandform.com).
